### **Archicad, BIMcloud, BIMcloud SaaS, BIMx, DDScad boilerplates/positioning statements**

**(May 2025)**

#### **Archicad boilerplate**

Design projects of any size with Archicad's powerful built-in tools and user-friendly interface that make it the most efficient and intuitive BIM software on the market. Our award-winning software solution supports OPEN BIM for workflow transparency, longevity, and data accessibility for built assets. Featuring out-of-the-box design documentation, one-click publishing, photo-realistic rendering, and best-in-class analysis, Archicad lets you focus on what you do best: design great buildings. [Discover Archicad](#).

#### **Archicad short positioning statement (25 words)**

Design projects of any size with Archicad's powerful built-in tools and user-friendly interface that make it the most efficient and intuitive BIM software on the market.

#### **Archicad long positioning statement (50-75 words)**

Work smarter, not harder. Design projects of any size with Archicad's powerful built-in tools and user-friendly interface that make it the most efficient and intuitive BIM software on the market. Featuring out-of-the-box design documentation, one-click publishing, photo-realistic rendering, and best-in-class analysis, Archicad lets you focus on what you do best: design great buildings.

#### **BIMcloud boilerplate**

[Secure, real-time multi-disciplinary collaboration](#) between all project team members regardless of the size or complexity of the project, the location of the offices, or the internet connection speed. Available in both private and public cloud configurations on standard hardware. With BIMcloud SaaS, even smaller offices can take advantage of fast, efficient, and secure real-time access to shared projects. [Discover BIMcloud](#).

### **BIMcloud short positioning statement (25 words)**

Secure, real-time collaboration between project team members, regardless of the size of the design project, the location of the offices, or the speed of the internet connection.

### **BIMcloud long positioning statement (50-75 words)**

Secure, real-time collaboration between project team members regardless of the size or complexity of the project, the location of the offices, or the speed of the internet connection. Available in both private and public cloud configurations on standard hardware and software as a service that allows even smaller offices to take advantage of fast, efficient, and secure access to shared projects in real-time.

### BIMcloud logo

### **BIMcloud Software as a Service positioning statement**

BIMcloud Software as a Service enables real-time, secure teamwork between architects and other professionals in the cloud. With your BIMcloud SaaS subscription, you get access to your own dedicated BIMcloud server hosted by Graphisoft in the Google Cloud Platform. No IT setup is required – just launch the service and get ready to share your Teamwork projects in the cloud.

### **BIMx boilerplate**

Award-winning BIMx bridges the gap between the design studio, the client's office, and the construction site. BIMx features the 'BIM Hyper-model' – a game-like navigation tool that helps anyone explore the building model and understand project deliverables. Real-time model cut-throughs, in-context measuring, and project markups in the model context make BIMx your best anywhere BIM companion. Discover BIMx.

### **BIMx short positioning statement (25 words)**

Bridge the gap between the design studio, the client's office, and the construction site with BIMx, the most popular presentation and coordination app for iPad, iPhone, and Android phones and tablets.

**BIMx long positioning statement (50-75 words)**

Bridge the gap between the design studio, the client's office, and the construction site with award-winning BIMx, the most popular presentation and coordination app for all project stakeholders. BIMx features the 'BIM Hyper-model' – a game-like navigation environment that helps even non-professionals easily explore the building model and understand project deliverables. Real-time model cut-throughs, in-context measuring, and project markups in the model context make BIMx your best anywhere BIM companion.

**BIMx logo****DDScad MEP boilerplate**

DDScad solutions support users with intelligent Mechanical, Electrical, and Plumbing (MEP) design tools, integrated calculations, and comprehensive documentation of all building systems. Design and deliver high-quality MEP projects on time and within budget thanks to DDScad BIM software for engineers and contractors. Our products and solutions support OPEN BIM for workflow transparency, longevity, and data accessibility for built assets. [Discover DDScad](#).

**DDScad MEP short positioning statement (25 words)**

Design and deliver high-quality Mechanical, Electrical, and Plumbing (MEP) projects on time and within budget with DDScad BIM solutions.

**DDScad MEP long positioning statement (50-75 words)**

Combine great architecture with peak building performance thanks to DDScad's intelligent Mechanical, Electrical, and Plumbing (MEP) design tools, integrated calculations, and comprehensive documentation solutions for all building systems. Design and deliver high-quality MEP projects on time and within budget while collaborating seamlessly with your BIM project stakeholders.
