Vision — Graphisoft's vision is to build a better tomorrow imagined by great design teams and brought to life with our innovative solutions.

Mission — Graphisoft's mission is to deliver an inspiring and intuitive design experience that unlocks ambition, sparks creativity, boosts productivity, and feels right for our users.

Strategy — Graphisoft's strategic focus is on empowering architects and engineers through seamless, end-to-end workflows that support the way they design, collaborate, and deliver exceptional buildings.

Product roadmap — A product roadmap shaped in close partnership with our customers, focused on delivering the best design experience through seamless collaboration, interoperability, and frictionless adoption—prioritizing meaningful outcomes and the intentional use of AI and the latest technologies to enhance how teams design and work together.

Delivery — Combine a bold, entrepreneurial mindset—constantly innovating and challenging convention—with a stable, trusted core that customers rely on for ease of use and long-term confidence across products, services, support, and community.

Graphisoft positioning statement

Graphisoft empowers teams to design great buildings through award-winning software solutions, learning programs, and professional services for the AEC industry.

About Graphisoft

Graphisoft® empowers teams to design great buildings through AI-assisted software solutions, learning programs, and professional services for the AEC industry. Our award-winning solutions and services support OPEN BIM to enhance workflow transparency, asset longevity, and data accessibility for built assets. **Archicad**®, the architects' BIM software of choice, offers end-to-end design and documentation workflows for architectural and engineering practices of any size, with **MEP Designer** enabling engineers to model, coordinate, and document building systems directly within the BIM environment. **BIMx**®, the most popular mobile and web BIM app, extends the BIM experience to include all stakeholders in the building design, delivery, and operations lifecycle. **BIMcloud**®, the AEC

industry's first and most advanced cloud-based team collaboration solution, makes real-time collaboration possible across the globe. **DDScad** solutions support users with intelligent electrical design tools, integrated calculations, and comprehensive documentation. Graphisoft is part of the Nemetschek Group. To learn more, visit graphisoft.com.
