

Márton Kiss, Chief Product Officer

Márton Kiss, Chief Product Officer, joined Graphisoft in 2009. He is responsible for leading Graphisoft's global product management teams, whose primary task is to build and implement product strategy for Archicad, BIMcloud, BIMx, DDScad, and MEP Designer.

Before being named Chief Product Officer, Márton held global roles at Graphisoft in customer engagement, professional services, and BIMcloud implementation. He has a master's in architecture and engineering from the Budapest University of Technology and Economics and a master's degree in IT Management from the Central European University in Budapest.
