

# Upgrade to the Latest Version:

## ArchiCAD 19® and STAR(T) Edition®

### New Features Comparison Chart

	ArchiCAD 19	SE 2015	SE 2014	SE 2013	SE 2012
<b>Modeling</b>					
Complex, Multi-story Elements	+	+	+	+	+
Floor-plan Display Options for Construction Elements	+	+	+	+	+
Multi-Plane Roof	+	+	+	+	+
Element Connections Management	+	+	+	+	+
Door and Window Vertical Anchor	+	+	+	+	+
Profiled, Slanted Walls, Columns, Beams via the Profile Manager	+	+	+	+	
Doors/Windows Fit to Slanted and Complex Wall Surfaces	+	+	+	+	
Curved Profiled Walls and Complex Elements	+	+	+	+	
Shell Tool	+	+	+	+	
Core-Based Reference Line for Component Structures	+	+	+		
Automatic Model-Based Junctions	+	+	+		
Air Gaps in Composite Structures: Correct Display & Handling	+	+			
Building Materials: Expanded Properties & Tags	+	+			
Edit Multiple Elements Simultaneously w/ Visual Feedback	+	+			
Composites Without Cores	+	+			
Link Element Heights to Stories	+				
Curtain Wall Tool	+				
<b>Visualization / 3D Exploration</b>					
Internal Rendering Engine	+	+	+	+	+
Virtual Tracing - Reference Layer among all Views, Layouts	+	+	+	+	+
3D Zones Geometry Fit to Complex Elements	+	+	+	+	+
Partial Structure Display	+	+	+	+	+
3D Feedback with Working Plane, 3D Guidelines	+	+	+	+	+
3D Editing Plane	+	+	+	+	+
Snap to Surface in 3D Window; Move & Elevate in One Step	+	+	+	+	
Real-Time Editable 3D Cutting Planes	+	+	+		
Sketch Rendering	+				
CineRender (Basic/Advanced) Rendering	+				

	ArchicAD 19	SE 2015	SE 2014	SE 2013	SE 2012
<b>Documentation</b>					
3D Document: Dimensioned and Annotated 3D Views	+	+	+	+	+
Interactive, Annotated Door/Window Schedules	+	+	+	+	+
Scale Dependant Detailing	+	+	+	+	+
Interactive Schedule Data Export to Excel	+	+	+	+	+
External Drawings (PDF/DWG/Image from/to SE)	+	+	+	+	
Import Site Survey Geometry as Morphs	+	+	+	+	
Floor-plan Based 3D Document	+	+	+		
Interior Elevation Improvements	+	+			
Renovation Feature with Element-level Stating	+				
BIMx Hyper-model Publishing	+				
Revision Management	+				
Publish Layers to PDF from Layout	+				
Control Published Per-Element Info Content for BIMx	+				

<b>Workflow-Productivity-Project Management-Performance</b>					
Integrated Layouting, Layout Book	+	+	+	+	+
Markup Tools	+	+	+	+	+
Supersafe Autosave	+	+	+	+	+
Single, Unified Undo Queue for the Entire Project	+	+	+	+	+
Easy Creation of Custom Library Parts with Modifiable Attributes	+	+	+	+	
Graphical Project North Definition	+	+	+	+	
Building Materials, Smarter Attribute Management	+	+	+		
Conceptual Design with Morph Scheduling	+	+	+		
Duplicate Elements in Section and Elevation View	+	+	+		
Background Processing Support for Faster Performance	+	+	+		
Flexible Editing of Placed PDF Drawings	+	+			
PDF-Based Data Exchange – Optimized Export, with Layers	+	+			
Easier Attribute Management/Handling	+	+			
Project Publisher, Project Reviewer	+				
(Multi-story) Hotlinked Modules,	+				
License Borrowing, NET License	+				
Integrated Building Energy Evaluation	+				
Multithreading Available on Unlimited Number of Cores	+				
Surface Painter, Expanded Surface Catalog	+				
Snap Points and Guide Lines	+				
Tab Bar on Windows and Mac	+				
Mac Interface: Unified Window Mode with Docking Palettes	+				
List Skin/Component Area in Interactive Schedule	+				
Schedule of Finishes	+				
Appearance and Speed Improvements for Dimensions and Labels	+				
MEP Improvements in Collision Detection, Classification	+				
Predictive Background Processing for Nearly Instant Model Views	+				
Optimized OpenGL Engine for Smoother, Faster Navigation	+				

	ArchiCAD 19	SE 2015	SE 2014	SE 2013	SE 2012
<b>Communication; I/O; Interoperability - PLN, PLA, TPL, MOD File Import</b>					
AutoCAD DWG/DXF Import/Export	+	+	+	+	+
Convert Surveyor's Data into ArchiCAD Mesh	+	+	+	+	+
Integrated IFC Import/Export Engine, Property Management	+	+	+	+	
Building Element Classification for MEP & Structural Engineering	+	+	+	+	
Data Exchange with Structural Software	+	+	+	+	
Save Elements to Common DWG Blocks	+	+	+		
Google Earth and SketchUp Connection	+	+	+		
IFC Support for Multiple Standards	+	+	+		
PDF/A Export	+	+	+		
Enhanced Mark-Up; 3D Screenshots	+	+			
BIM Collaboration Format (BCF)-Based Data Exchange	+	+			
Scheme-Driven IFC Data Management and Export	+	+			
ArchiCAD BIM Parameters & Quantity Mappings to IFC Data	+	+			
Certified Import and Export of IFC 2x3 Coordination View v2.0	+	+			
Complex and Composite Geometry Export/Import Enhancements	+	+			
IFC Publishing	+				
Export Multiple Layouts into Single DWG	+				
Save Exploded DWG Drawings to a Single Layer	+				
DXF/DWG External Reference Support (Xref)	+				
Point Cloud Display	+				
Exact IFC Geometry Import; Attribute Handling/Overrides	+				
ID Management of IFC Spatial Elements	+				
Better Import of MEP Models w/ Automatic Detection/Conversion	+				
Streamlined IFC data mapping of Library Part Parameters	+				
Export IFC Data to BIMx	+				
EDU / Trial File Format Support	+				
PMK File Format Support	+				
Export Model to STL Format	+				
ArchiCAD 19 File Open   Save	+ +	- -	- -	- -	- -
EDU File Open   Save	+ -	- -	- -	- -	- -
SE 2012 File Open   Save	+ -	+ -	+ -	+ -	+ +
SE 2013 File Open   Save	+ -	+ -	+ -	+ +	- -
SE 2014 File Open   Save	+ -	+ -	+ +	- -	- -
SE 2015 File Open   Save	+ -	+ +	- -	- -	- -
<b>Library</b>					
Model View Options for Library Parts	+	+	+	+	+
Embed Only Necessary Library Objects in the Project	+	+	+	+	+
Library Migration, Library Management	+	+	+	+	+
Keyword Based Search Function Finds Library Parts	+	+	+	+	
Double-Quick Library Loading Times, Faster 3D Handling	+	+	+		
Simplified Door/Window UI	+				
New and Improved Label Types	+				
<b>Teamwork &amp; BIM Server</b>					
Teamwork Extended to Documentation Process - Layouts	+				
BIM Server - Model Based Team Collaboration	+				
Reservation Methods	+				
Instant Team Communication	+				
Remote Project Management, Portability and Remote Access	+				
Delta-Server for Fast and Safe Data Exchange in Teamwork	+				
Control Over Client-Server Technology	+				
BIM Server Optimized: Autosave Backup, Faster Performance	+				
BIMcloud Control Icon: Single Entry Point for Server Management	+				
Network Diagnostic Tool for all BIMcloud/BIM Server components	+
